Must adhere to the USE RESTRICTIONS in the DIRECTIONS FOR USE section of this label.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **READ THIS LABEL:** Read this entire label and follow all use directions and use precautions. Use only for the sites, pests and application methods described on this label.

USE RESTRICTIONS:
This bait station may be used in indoor areas accessible to children, consistent with all use restrictions and other requirements indicated in this label. **DO NOT USE THIS PRODUCT OUTDOORS OR IN AREAS ACCESSIBLE TO PETS.** This product may only be used to control house mice. TOMCAT MOUSE KILLER II bait station must be used in buildings consistent with all use restrictions and other requirements indicated on this label. Do not place this bait station in any area where there is a possibility of contaminating food or surfaces that come into direct contact with food.

SELECTION OF TREATMENT AREAS: Determine areas where house mice will most likely find and consume the bait. Generally, these areas are along walls, by gnawed openings, in corners and concealed places.

APPLICATION DIRECTIONS:
Place the bait station at highest point of activity along a wall or in corner where signs of house mice have been seen. If additional units are to be used, place bait stations at intervals of 8 to 12 feet. Maintain an uninterrupted supply of fresh bait for at least 15 days or until there no longer are signs of house mouse activity in infested areas. Replace bait station when bait is consumed or contaminated.

Follow-up: Wearing gloves, collect and properly dispose of any emptied bait stations or carcasses. To discourage reinfestation, eliminate food, water and harborage as much as possible. If reinfestation does occur, repeat treatment.

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals
CAUTION: Bait contents harmful if swallowed. Keep away from children, domestic animals and pets. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

USER SAFETY REQUIREMENTS: As soon as possible, wash hands thoroughly after applying and before eating, drinking, chewing gum, using tobacco, or using the toilet.

TREATMENT FOR PET POISONING
If an animal eats this bait, call a veterinarian at once.
NOTE TO PHYSICIAN OR VETERINARIAN
Contains the nerve poison bromethalin. This product is not an anticholinergic. For humans or animals ingesting bait and/or showing poisoning signs (such as tremor, loss of hind limb use, or seizures for animals), limit absorption by either emesis or lavage. Sublethal symptoms, if present, would be the result of edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

ENVIRONMENTAL HAZARDS
This product is extremely toxic to fish and aquatic life. Dogs and scavenging mammals and birds might be poisoned if they eat bait on animals that have eaten this bait. Do not allow product directly to water.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.
Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets.
Disposal and Container Handling: Empty containers must be disposed of in a separate container. Do not reuse or refill container except as described in the Directions for Use.
Empty: Place in local solid waste agency for recycling if available.
Partly Filled: Place in local solid waste agency for disposal instructions. Never place unused bait down any indoor or outdoor drain.

WARNING: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and disposal of this material when such use and/or handling is contrary to label instructions. 0105177/01-13
