

RAMPAGE®

OUR FASTEST ACTING BAIT FOR TOUGH RODENT PROBLEMS

RAMPAGE Baits are specifically formulated for Livestock producers, especially Swine and Poultry facilities where rodent populations are high and Biosecurity is critical. RAMPAGE is excellent for knockdown of severe infestations because it's made with Bromethalin, an acute active ingredient that kills rats and mice faster than anticoagulant baits. RAMPAGE's unique mode of action makes it a critical part of any bait rotation program, and should be used at least once a year to reduce any potential resistance issues to anticoagulant baits.
