ZINC PHOSPHIDE BAIT FROM THE WORLD LEADER IN RODENT CONTROL TECHNOLOGY

PELLETS • OATS

- ▶ Zinc Phosphide bait for use in crop and rangeland applications
- ▶ Can be used on various crops for control of specific species of gophers, ground squirrels, prairie dogs and voles
- ▶ Broad label allows for broadcasting in orchards, grass grown for seed, vineyards, alfalfa, nurseries, sugar cane and others.
- ▶ Uniquely formulated to compete with natural food sources
- ▶ Proven effective with active ingredient uniformly incorporated throughout pellets or oats
- ▶ Durable pellet structure to minimize crumbling and dust
- ▶ Supported nationwide by a team of Motomco Territory Managers and Distributors
- ▶ Restricted Use Pesticide - see product label for full application instructions
- ▶ Available in 50lb Pellets, 50 lb "Short" Pellets and 1450 lb Totes
- ▶ Squirrel Oats for Ground Squirrel Control available in 45lb Bags
- ▶ Crimped Oats for Prairie Dog Control available in 33lb Bags
