

WITH
BROMETHALIN

MEAL BAIT

THE EXCLUSIVE SEED
 AND GRAIN FORMULA
 WITH BROMETHALIN

- Our most palatable form of Bromethalin bait and an excellent option when faced with competing food sources
 - Ideal for storage areas where feed and grain are kept, outbuildings, and agricultural structures that attract rats & mice
 - Made with Bromethalin, a non-anticoagulant active ingredient
 - Once consumed, Bromethalin kills rodents faster than anticoagulant baits*
 - Rodents will cease feeding after consuming a lethal dose, requiring less bait to be used compared with other anticoagulant baits
- Kills anticoagulant resistant rats & mice
- For use in and around agricultural buildings and homes, and in confirmed rodent burrows farther than 100 feet from buildings and man-made structures

* based on time to death from consumption of a lethal dose
